

CARAMELO DOG LUCKY RUN

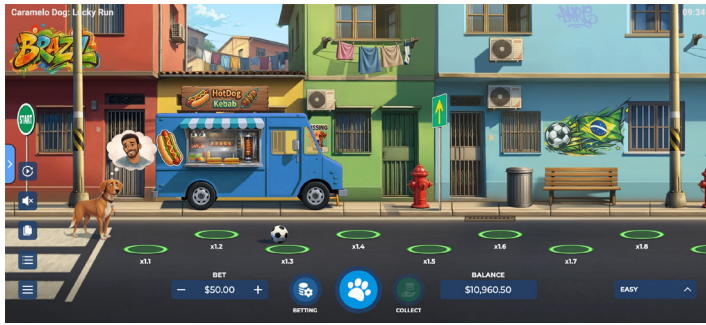

Begin a journey filled with heart, courage, and rewarding surprises in Carmelo Dog: Lucky Run!

Taco, a playful caramel-coloured pup with kind eyes and a fearless spirit, has lost his way in a lively neighbourhood bursting with unexpected challenges. From bustling sidewalks and playful distractions to tricky obstacles that appear out of nowhere, every step forward is a test of luck and bravery. Yet Taco keeps moving, guided by hope and the dream of returning home.

Each obstacle appears randomly, turning every round into a unique adventure where confidence can lead to impressive prizes. Choose your level of difficulty before the run begins. But remember: the greater the challenge, the more intense the journey and the bigger the potential rewards.

Run with Taco. Chase the thrill. Find the way home!

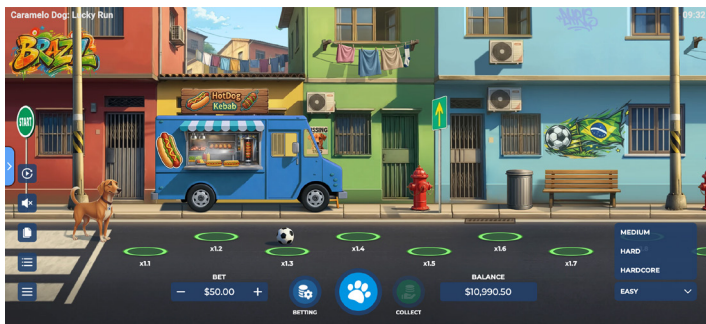

Game Features

DIFFICULTY LEVELS

You can choose from four difficulty levels: Easy, Medium, Hard, and Hardcore. As the difficulty increases, so does the intensity of obstacles, raising the risk of a crash that could happen, but also boosting the starting bet multiplier. The harder the level, the greater your potential winnings!

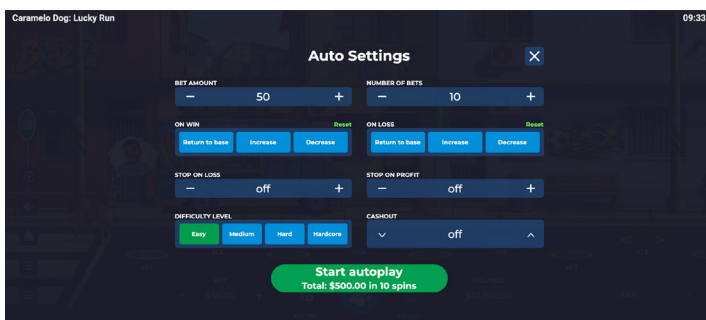

CASH OUT FEATURE

You can stop the game and cash out the current winnings at any moment after the dog stops if you feel the next move is too risky. This way, you will end the current game round and collect your winnings.

AUTOPLAY

The Autoplay feature lets you run multiple bets automatically using your selected settings. Customise your gameplay with flexible options. Once everything is configured, press "Start Autoplay" to start playing.
