## Game Features

### GROWING REELS

Each symbol drop will add another row of symbols on top, increasing the size of the reels and the number of ways to win. The reels can grow up to 6 rows high, providing a maximum of 7776 ways to win.

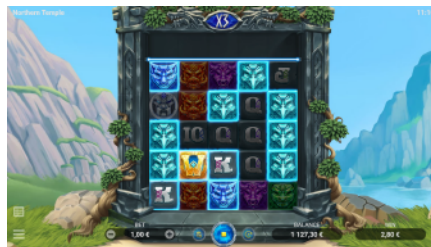

### WIN MULTIPLIER

With each symbol drop, a win multiplier will increase by 1, starting at x1 and with no upper limit. This multiplier will apply to all wins. However, at the start of each spin in the main game, the win multiplier will be reset to x1.

### WILD SYMBOL

Wild symbols can only appear on the 2nd, 3rd, 4th and 5th reels. Wild symbols substitute for all symbols except Scatter and Coin symbols. The Wild symbol appears during the main and Free Spins games.

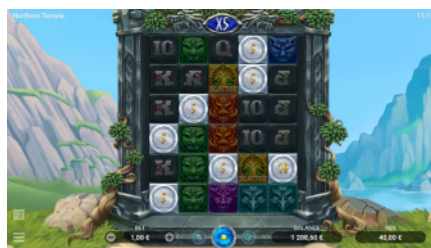

### FREE SPINS

Three or more Scatter symbols trigger 15 Free Spins. During Free Spins, you can get additional 15 Free Spins. Win multiplier is saved between rounds during Free Spins.

### COIN SYMBOLS

Coin symbols have the potential to land on any reel during both the main game and Free Spins round. When they appear during drops, they will remain on the reels until there are no more wins. If you manage to get three or more Coin symbols on the reels after all the drops have finished, a special feature will be triggered. Each Coin symbol will reveal a random value, which will then be multiplied by the current win multiplier and added together. The resulting value will then be multiplied by your bet and paid out as your winnings.
