Game Features

BONUS SYMBOL

The Bonus symbol appears on any reel during the main game only. 3 or more Bonus symbols trigger Free Spins.

FISH&COLLECT FEATURE

Landing at least one Wild and Fish symbol at the same time triggers the Fish&Collect feature.

The Fish&Collect feature can be triggered during the main and Free Spins games.

The Fish symbol is a regular symbol that also has an instant reward equal to the random value multiplied by the bet.

Instant reward can be received with Wild, which functions as a collector when it lands on the reels.

DYNAMITE FEATURE

The Dynamite feature can be triggered on any spin during the main and Free Spins game when at least one Wild lands on the reels. Randomly chosen 3-6 regular symbols on the reels, except Fish symbols, are replaced by Fish symbols. After that, the Fish&Collect feature triggers.

FREE SPINS

Choose one of 3 locations with different volatility before Free Spins start. During Free Spins, collect 4 Wild symbols to increase Wild Multiplier and get Extra Spins. Hunt for Gold Fish, the instant reward of which reaches up to x100 depending on volatility

FREE SPINS PROGRESSION

Every Wild that lands during the Free spins charges the progress bar. Collect 4 Wild symbols to complete the level. Completing the level increases the Wild Multiplier and gives the Extra Spins starting from the next spin.

TACKLE BOX

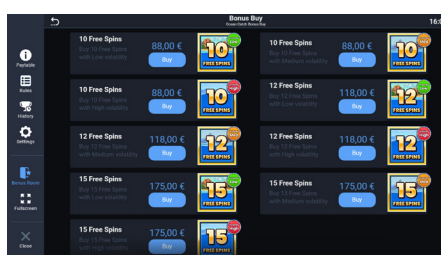

Tackle box lands on the 5th reel only during Free Spins. It always gives a reward after landing on the reels: the Multiplier boost or Extra Spins. Multipliers boost: x3, x5, x10 or x20. Extra Spins: +2, +3, +5 or +8 spins.

DOUBLE CHANCE

During the main game, you have the option to activate the Double Chance feature. The final bet will be adjusted to your initial bet multiplied by a coefficient of 1.50x, providing you with twice the chance of triggering Free Spins.

BONUS BUY

This feature allows you to purchase and immediately trigger Free Spins.
