GAME FEATURES

WILD SYMBOL

The Wild symbol substitutes for all other symbols and appears exclusively on reels 2, 3, and 4. Each Wild comes with a random multiplier — x2, x3, x5, x7, or x12 — that is applied to all winning lines for that spin, increasing your winnings. If multiple Wilds appear, their multipliers are combined.
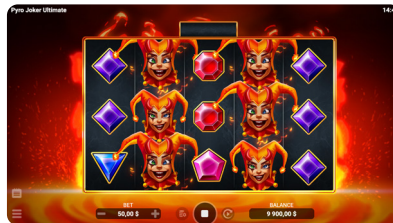

EXPANDING WILD SYMBOL

Any Wild symbol that lands expands to cover the entire reel, creating a stack of three Wild symbols. After the expansion, wins are calculated across all winning lines, and a Wild Respin is triggered, providing additional opportunities to win.
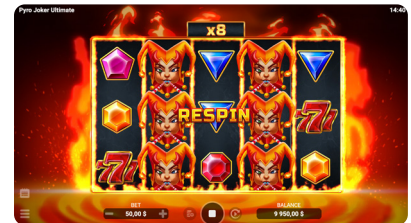

RESPIN

When Wild symbols land on reels 2, 3, or 4, they expand to fill the entire reel and trigger a Respin. If another Wild appears during the Respin, it also expands and triggers another, allowing up to three Respins in total. All wins from Respins are added to the total from the triggering spin.
